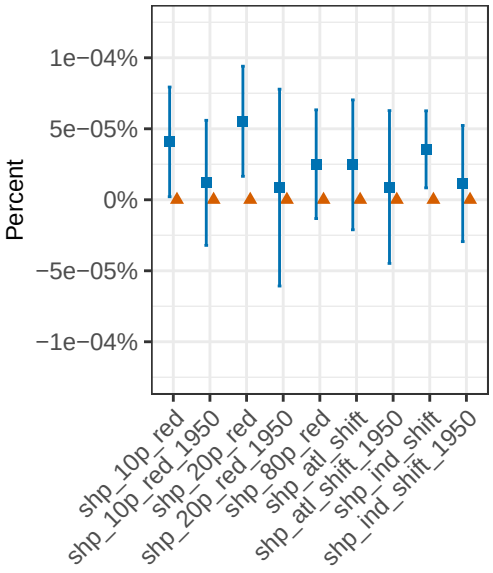
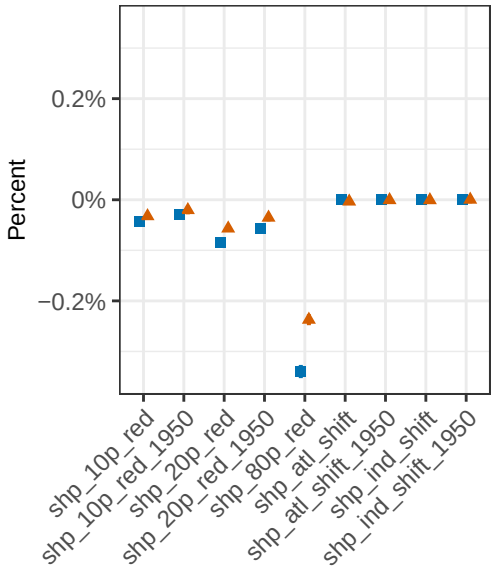
Summary − absolute difference

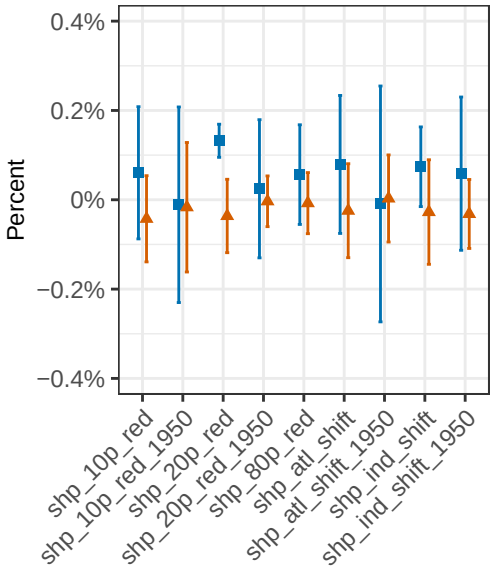
surface flux of BC − SH−land



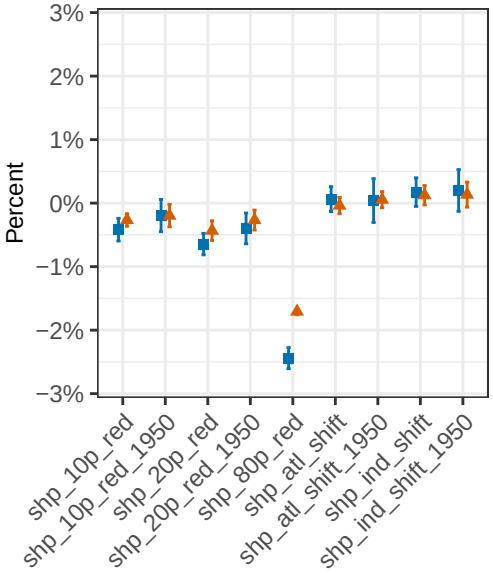
surface flux of SO2 − SH−land



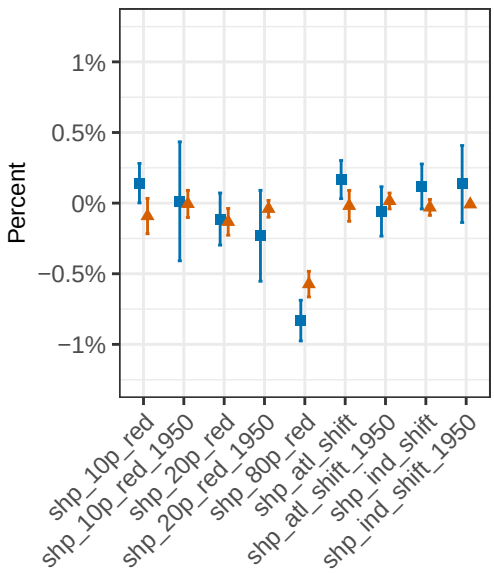
surface concentration of BC − SH−la



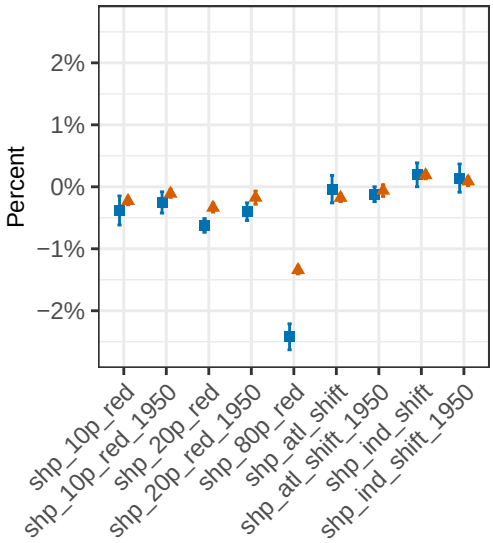
surface concentration of SO4 − SH−la



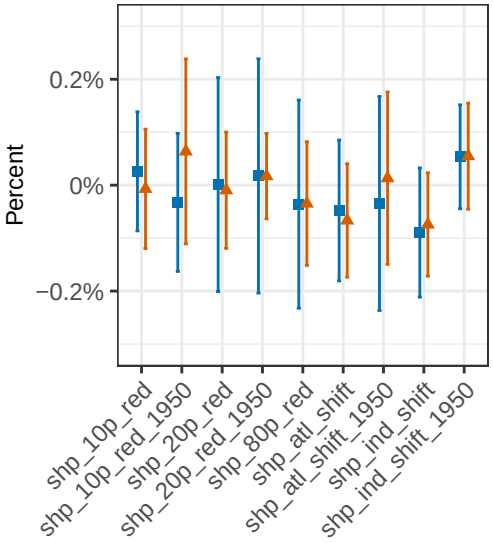
surface concentration of SO2 − SH−la



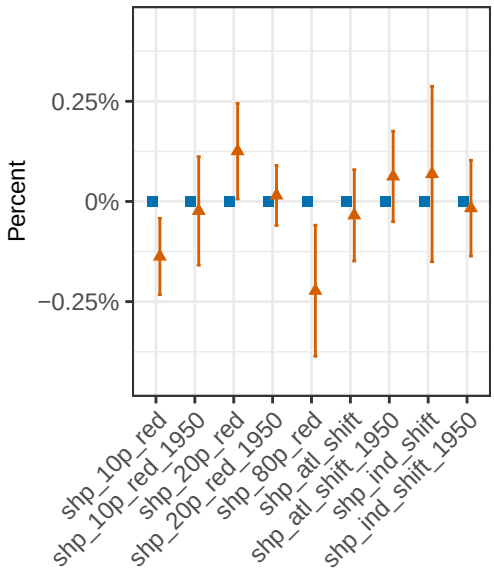
load
of so4 − SH−land



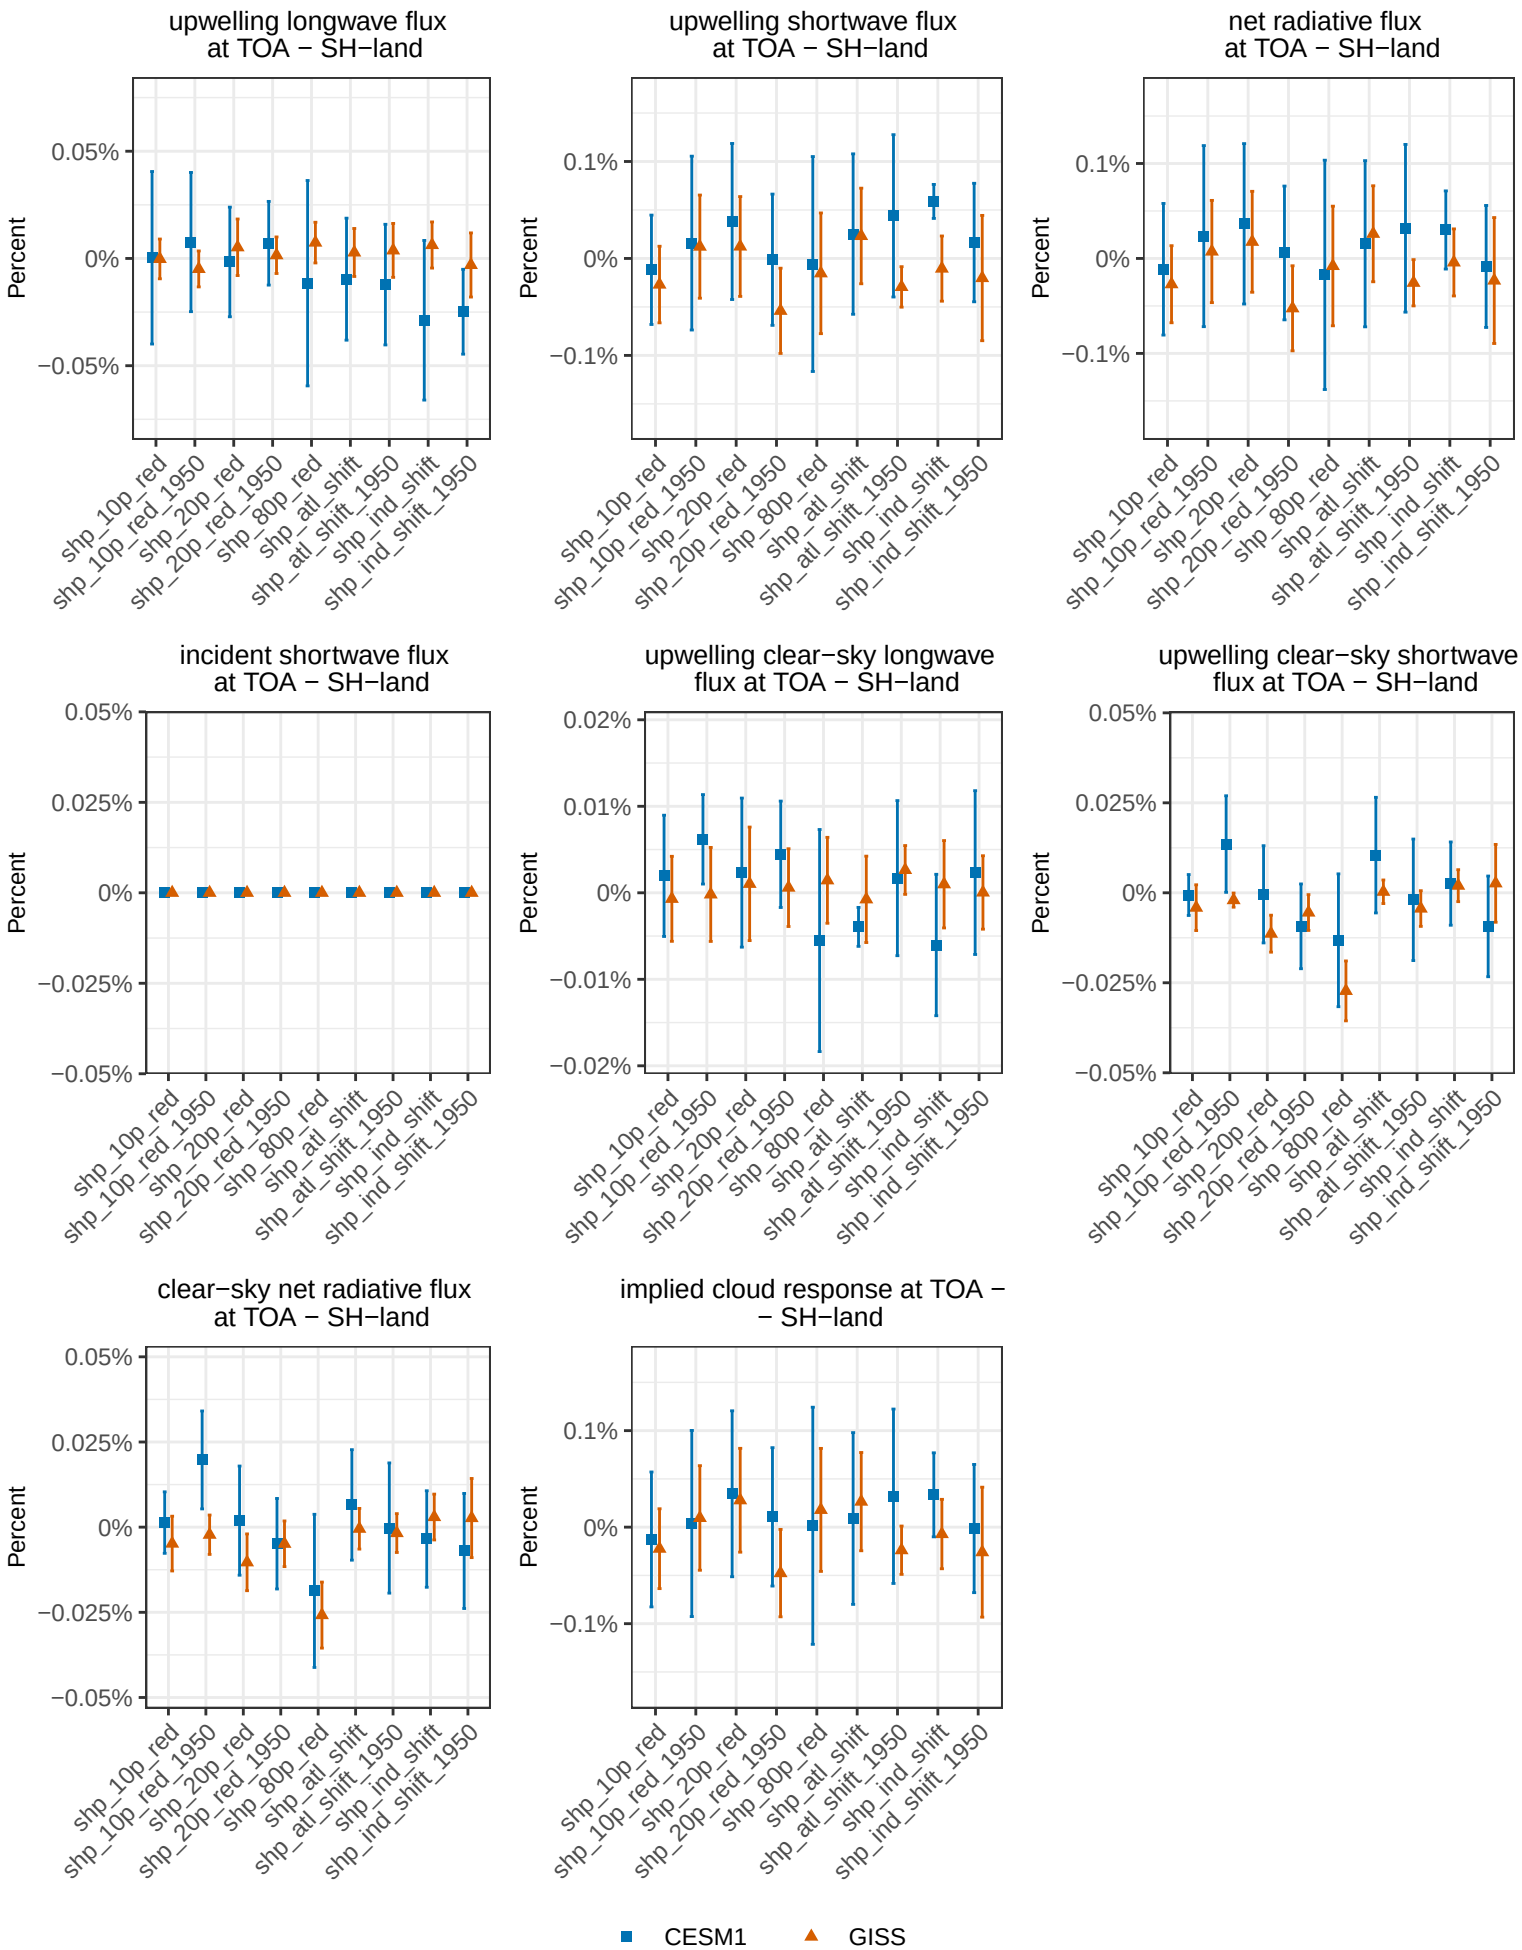
load
of bc − SH−land



Dimethyl sulphide (DMS) mole fraction − SH−land



CESM1 GISS



Summary − absolute difference
upwelling longwave flux at TOA − SH−land
upwelling shortwave flux at TOA − SH−land
net radiative flux at TOA − SH−land
incident shortwave flux at TOA − SH−land
upwelling clear−sky longwave flux at TOA − SH−land
upwelling clear−sky shortwave flux at TOA − SH−land
clear−sky net radiative flux at TOA − SH−land
implied cloud response at TOA − − SH−land

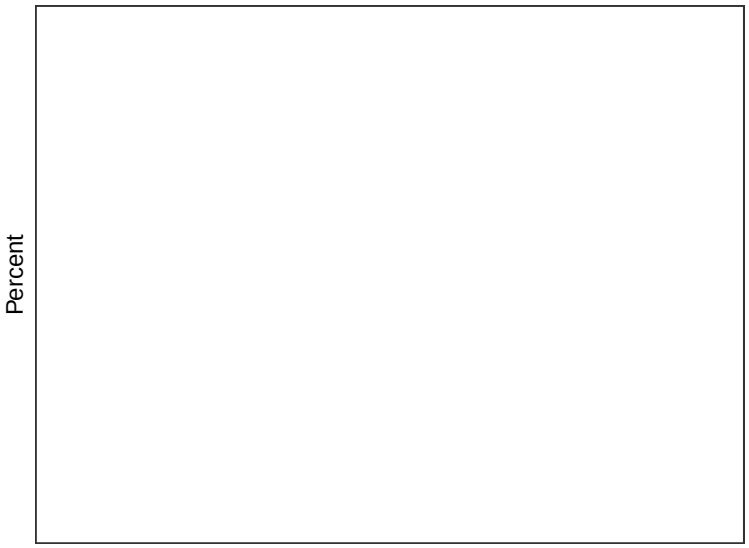
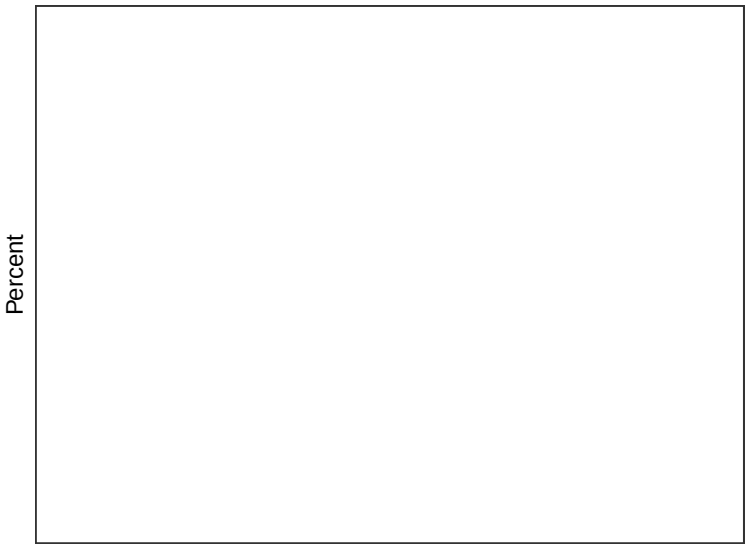
GISS

Summary − absolute difference

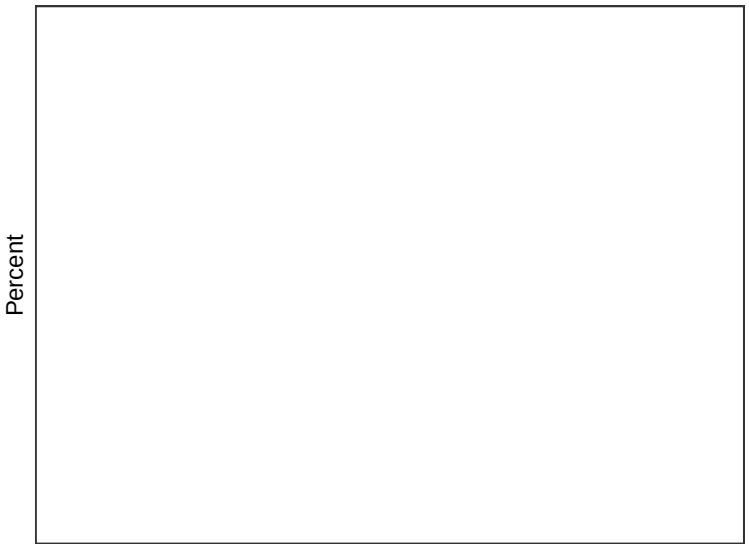
ambient aerosol optical thickness at 550nm − SH−land



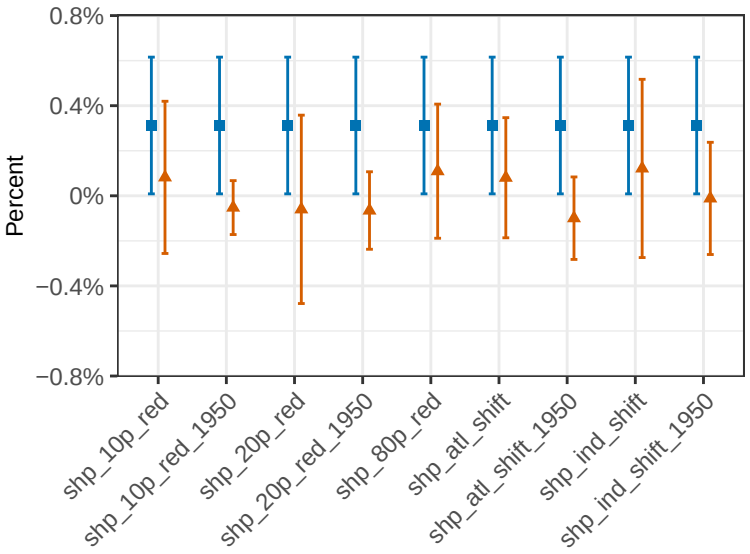
total cloud cover percentage − SH−land



convective cloud cover percentage − SH−land



cloud cover percentage − SH−land



Ice water path − SH−land
